

Kalpna Thakur

Mohali, Chandigarh | +91-8626881161 | kalpnathakurr@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software Engineer with 2.5 years of experience in full-stack development, system integration, and backend engineering using React.js, Node.js, Python, and MongoDB. Experienced in building scalable REST APIs, automation workflows, debugging complex system issues, and working with CI/CD pipelines. Strong understanding of software architecture, distributed systems, networking fundamentals, and test-driven development in Agile environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python (Scripting, Automation, API handling), SQL
Frontend: React.js, Next.js, Redux, Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, REST APIs, JWT Authentication, API Integration
Cloud & DevOps: AWS (S3, SES), Firebase, Docker, CI/CD Pipelines, Apache
Database: MongoDB, MySQL, Firebase Firestore
Tools & Services: Git, GitHub, Bitbucket, Stripe, Twilio, SendGrid, JWT
Core Concepts: Software Architecture, System Integration, Debugging, Test Automation, Agile Methodologies, Authentication, Authorization, Networking Basics

EXPERIENCE

Software Engineer 02/2025 – Present
Bizdesire Mohali, India

- Developed and executed API testing workflows and automation scripts to validate backend services and improve system reliability.
- Designed and integrated REST APIs for admin dashboards and production-grade backend services.
- Implemented CI/CD pipelines and Docker-based deployments for automated build and release workflows.
- Worked on system debugging, API testing, and integration issues in Agile environment.
- Integrated AWS S3 and SES for secure storage and automated communication workflows.
- Collaborated with cross-functional teams using GitHub and Bitbucket for sprint-based delivery.

Jr. Full Stack Developer 11/2023 – 10/2024
LBM Solutions Pvt. Ltd. Mohali, India

- Developed Web3-based full-stack applications using React.js, Node.js, and MySQL.
- Built backend modules for authentication, transactions, and system workflows.
- Implemented secure JWT-based authentication and Firebase services.
- Worked on debugging, testing, and optimization of frontend and backend systems.
- Managed Apache server deployments and ensured production stability.

PROJECTS

Uplevelit Marketplace Platform | *React, Node.js, Express, Firebase, Stripe, Twilio, SendGrid*

- Developed scalable creator/admin platform with role-based access and secure APIs.
- Integrated Stripe payments and Twilio communication services.
- Built backend automation workflows for subscriptions and notifications.
- Optimized API performance and system reliability through debugging.

HatchIQ Learning Platform | *Next.js, Node.js, MongoDB, AWS S3, SendGrid*

- Built cloud-based learning system using Next.js, Node.js, and MongoDB.
- Integrated AWS S3 for storage and backend automation workflows.
- Implemented email notification system and performance optimizations.
- Worked in Agile team for testing, deployment, and feature delivery.

EDUCATION

Himachal Pradesh University (HPU) Shimla, India
Bachelor of Computer Applications (BCA) | GPA: 8.5/10 2019 – 2022
